PRACTICAL USE EXERCISES

1. Put your right hand up in front of your face, palm facing you (you're using your right hand because that's the treble clef hand when you play piano). Use your left hand to point to the fingertips and "valleys" of the right hand fingers. Say each line/space name as you touch it. Look at the illustration below if you need a little help. Be sure to say the names out loud and to touch your hand. It'll help you remember.
