

CHAPTER 9 STUDY GUIDE

- | | |
|---|--|
| 1. What does a dot following a note do? | 1. makes the note $1\frac{1}{2}$ times as long |
| 2. How long is a dotted half note in 4/4 time? | 2. three beats |
| 3. How long is a dotted quarter note in 4/4 time? | 3. $1\frac{1}{2}$ beats |
| 4. How long is a dotted eighth note in 4/4 time? | 4. $\frac{3}{4}$ of a beat |
| 5. Which type of note usually follows a dotted eighth note? | 5. sixteenth note |
| 6. Why? | 6. to round out the beat |

PRACTICAL USE EXERCISES

1. On the staves below, experiment with dotted notes. Include every dotted note you've learned. Use several different meters (with bar lines) and don't forget the rests, too. When you've finished, write in the counting. Check your work with a friend.

Ten blank musical staves, each consisting of five horizontal lines, provided for the student to practice writing dotted notes and rests in various meters.
